

Rampart Investment Management

Option Overlay Strategies for Customized Investment Solutions

Rampart is proud to sponsor the 2009 Investment Education Symposium.

Since 1983, Rampart has responded to every type of market scenario with systematic and disciplined options solutions, helping investors generate incremental yield and dampen downside risk.

Our proprietary investment solutions can help investors increase the utilization of current assets by monetizing the volatility of existing equity positions. Additionally, we can work with investors to mitigate risk and alter the investment income profile of their equity program by employing customized derivative overlay strategies.

Our success is driven by discipline, fueled by innovation, and inspired by the financial challenges faced by investors globally.
